

## CONTENTS

### BOTANY AND PHYSIOLOGY

Cod nou	Titlu	Autori	Nr. pag.
<b>B&amp;P 01</b>	Research regarding the physiological and Biochemical processes of <i>Origanum sp.</i>	Burzo I., Bădulescu Liliana, Simionescu Liliana	13-16
<b>B&amp;P 02</b>	Aspects regarding ornamental potential of wild flora species	Georgescu Mihaela Ioana, Bădulețeanu C., Vasilica Palanciuc, Săvulescu Elena	17-18
<b>B&amp;P 03</b>	Fruit development in some Maloideae species	Georgescu Mihaela Ioana, Palanciuc Vasilica, Săvulescu Elena, Bădulețeanu C.	19-21
<b>B&amp;P 04</b>	Comparative determination of <i>Origanum vulgare</i> essential oil composition by GC-MS and GC-FT-IR	Mihaiescu D., Burzo I., Simionescu L., Dobrescu A.	22-25
<b>B&amp;P 05</b>	Chorological and ecological aspects of <i>Nepeta cataria L.</i> ( <i>Lamiaceae, Nepetoideae</i> ) in Romania	Pădure Ioana Marcela	26-29
<b>B&amp;P 06</b>	Chorological and ecological aspects of <i>Conyza canadensis</i> (L.) <i>Cronq.</i> ( <i>Asteraceae, Asteroideae</i> ) in Romania	Săndulescu Nicoleta, Pădure Ioana Marcela	30-33
<b>B&amp;P 07</b>	Researches on Fitpol Influence from various agrofoundations on engrafted grape vine physiological processes	Stancu R., Fleancu Monica, Dumitriu I., Drăghia Eugenia, Enache Alina	34-37
<b>BP 08</b>	Floral morphogenesis of <i>Salvia officinalis L.</i> ( <i>Lamiaceae</i> )	Toma I., Toma C., Zamfirache M.M.	39-41
<b>B&amp;P 09</b>	Research regarding the fruit quality of tomato early hybrids, new created for greenhouse and field	Vânătoru C., Bădulescu Liliana, Petrescu C., Burzo I.	42-45
<b>B&amp;P 10</b>	The effect of air pollutants from Borzesti industrial center (Bacau district) upon physiological processes and morphoanatomical characters of wooden angiosperms (note IV)	Zamfirache M.M., Ivănescu L., Apetrei R.	46-49

## FLORICULTURE AND DENDROLOGY

Cod nou	Titlu	Autori	Nr. pag.
F&D 01	Perfume composition on some flowering bulb species	Burzo, I., Mihăiescu D., Diana Zamfir Vâșcă, Constanța Alexe, Nicoleta Săndulescu	50-53
F&D 02	Researches regarding the vegetative propagation on <i>Cotinus coggygria</i>	Dumitrașcu Monica	54-57
F&D 03	Researches regarding the initiation of an in vitro culture on <i>Clematis vitalba</i>	Gălă Ruxandra, Stănică F.	58-61
F&D 04	Studies regarding in vitro propagation of rose	Gheorghe Aurelia Corina, Nițu Iulia, Stănescu Marilena	62-64
F&D 05	Rhizogenesis stimulation in <i>Rosa sp.</i> in the aim to obtain plants by cuttings with high biological value	Olteanu I., Petrescu C.	65-68
F&D 06	The influence of the substratum and of the ph upon the growth and the blossom at the species <i>Lisianthus Russelianus Hook.</i>	Petra Sorina, Davidescu Velicica, Toma F., Ciobanu Florica	69-72
F&D 07	Researches regarding the seeds germination depending on the sowing time and seeds age on <i>Lisianthus russelianus Hook.</i>	Petra Sorina, Șelaru Elena, Toma F., Ciobanu Florica	73-76
F&D 08	Response to transplanting of the ornamental species <i>Chamaecyparis</i> and <i>Picea</i>	Posedaru Alina, Stanciu Nicolae	77-80
F&D 09	Studies and researches regarding methods and techniques of bonsai obtaining for indoor plants	Șelaru Elena, Petra Sorina, Avram Mihaela, Pascu Beatrice, Baltag Daniela, Toma Mariana	81-84
F&D 10	Some practical aspects concerning heterocarpy in <i>Calendula officinalis L.</i>	Șelaru Elena, Zamfir Vâșcă Diana, Săftoiu Ioana	85-88
F&D 11	Studies concerning the influence of type explant upon the regenerative capacity of <i>Polyanthes tuberosa L.</i> plants	Toma Fl.	89-93

<b>F&amp;D 12</b>	Researches on the influence of the in vitro production of the planting upon some physiological process from <i>Polyanthes tuberosa L.</i> plants	Toma Fl., Burzo I., Dobrescu Aurelia, Petra Sorina	94-97
<b>F&amp;D 13</b>	Studies regarding the growing of <i>Nephrolepis Muscosa Hort.</i> plants on the organic and mineral substrates	X Toma Fl., Petra Sorina, Anghel Catalina	98-101
<b>F&amp;D 14</b>	Studies concerning the behaviour of the <i>ficus benjamina l.</i> Plants on the some organic compost	Toma Fl., Petra Sorina, Petra Vlad	102-106
<b>F&amp;D 15</b>	Studies regarding the without soil culture of <i>Gardenia jasminoides L.</i> plants	Toma Fl., Selaru Elena, Vasca Diana, Petra Sorina	107-110
<b>F&amp;D 16</b>	The lotus – an indian soul representative	Toma Mariana	111-114

#### FRUIT GROWING

<b>Cod nou</b>	<b>Titlu</b>	<b>Autori</b>	<b>Nr. pag.</b>
<b>FG 01</b>	Influence of planting distance on strawberry fruit bearing, when mulching with black polyethilene film	Baciu A., Godeanu I., Cosmulescu Sina, Cichi M.	115-119
<b>FG 02</b>	Partial results on irrigation influence on the highbush blueberry crop, under pedoclimatic conditions of Muscel submountainous area (Bilcești - 840)	Bădescu Cătălin	120-125
<b>FG 03</b>	Aspects on the impact and control of pear fire blight under Bilcești conditions	Bădescu Cristina	126-130
<b>FG 04</b>	Research concerning the influence of conducting modality upon productivity of some apple cultivars	Bărbat Nicoleta Laura	131-134
<b>FG 05</b>	Comparative study in development of apple trees in the nursery	Bărbat Nicoleta Laura, Păun C.	135-138
<b>FG 06</b>	The hibrids cherry x sweet cherry, potentials rootstock for intensive grow cherry	Cepoiu N., Păun C., Darjanschi Adriana-Mirela	139-142

<b>FG 07</b>	The implementation of haccp (hazard analysis and critical control points) system on concentrated fruit juices technology	Chira A.	143-146
<b>FG 08</b>	The effect of winter pruning at the yield of Chester thornless blackberry	Chira Lenuța	147-149
<b>FG 09</b>	Phenological and climatic simulation on the appearance of damages caused by late frosts in plum cultivars in Romania	Chițu E., Butac Mădălina	150-153
<b>FG 10</b>	A new class of multifunctional foliar nutritive products	Chițu Viorica, Chițu E., Perianu Adina, Marin F.C., Hororoi Anișoara, Calogrea Mihaela, Filipescu L.	154-157
<b>FG 11</b>	Preliminary results concerning insecticide action of some plant infusion	Ciceoi Roxana, Pașol P.	158-161
<b>FG 12</b>	The study fruiting performance of Some varieties news of plum tree grafted on some rootstocks, in view of the improvement the assortment in Oltenia hills zone	Cichi Mihai, Baciu Adrian, Cosmulescu Sina	162-165
<b>FG 13</b>	The quality of the apple fruits influenced by the planting distance of the trees	Dobrescu Aurelia, Bălan Daniela, Ioniță Marilena	166-170
<b>FG 14</b>	The foliar fertilization – technological, unconventional and unpoluting action method upon sweet cherry metabolism for a lasting development	Gradinariu G., Bireescu L., Dorneanu Emilia, Gavriluta I, Bireescu Geanina, Dana Daniela, Zlati Cristina	171-174
<b>FG 15</b>	Research concerning the influence of foliar fertilization upon the growing and bearing of the plum tree	Hoza D.	175-178
<b>FG 16</b>	The influence of the mixed branches shorten degree upon the yield and peach quality	Hoza D., Asănică A.	179-182

<b>FG 17</b>	Studies regarding the new blackberry genotypes introduction into assortment	Mladin Paulina, Mladin Gh., Coman M., Isac V., Mutafa C., Perianu A.	183-186
<b>FG 18</b>	Researches regarding the assessment of the storage capacity in microperforated plastic foil of some new lettuce varieties.	Nicolae D., Drăghici Elena	187-189
<b>FG 19</b>	Research concerning the evolution of catkins to hazelnut	Păun C., Bărbat Nicoleta Laura, Cepoiu N.	190-192
<b>FG 20</b>	The impact of environmental conditions about qualitative appropriations to the walnut fruits	Păun C., Cepoiu N., Bărbat Nicoleta Laura	193-195
<b>FG 21</b>	Techniques for a proper application of herbicides on fruit trees, small fruits and strawberry	Perianu Adina, Chițu Viorica, Chițu E., Mladin Paulina, Coman M.	196-299
<b>FG 22</b>	Researches regarding nutrient solution fertilization on <i>actinidia arguta</i>	Peticilă A.G., Davidescu Velicica	200-203
<b>FG 23</b>	Selection of some hybrid elites of kiwi ( <i>Actinidia arguta</i> ) for the extension in fruit production	Stănică F., Gavriliuț Cezara, Nicolae D.	204-207
<b>FG 24</b>	Northern banana ( <i>Asimina triloba L. Dunal</i> ) – a new fruit specie in Romania	Stănică Fl., Cepoiu N.	208-211
<b>FG 25</b>	Influence of tree soil water uptake on fruit yield in the Golden delicious apple cultivar grafted on mm 106	Tănăsescu N.	212-215

## VEGETABLE GROWING

Cod nou	Titlu	Autori	Nr. pag.
VG 01	Studies concerning the main characters variability of Ambăruș Silvica, Chantenay red core carrot in the conservative selection process	Brezeanu Creola, Mișu Ghică, Cristea Tina	216-220
VG 02	Comparative study of new tomato hybrids cultivated in cold greenhouses, in Ștefănești – Argeș	Anghel Adrian, Mușă Florina	221-224
VG 03	The behaviour of new carrot cultivars in east part of the Danubian plain	Atanasiu N., Luchian Viorica, Bădulescu Liliana, D. Budur	225-228
VG 04	The relationship between the features of incident light on plant and the tomato yield	Bădulescu Liliana, Burzo Ioan, Ciofu Ruxandra, Luchian Viorica, Atanasiu Nicolae	229-232
VG 05	Microsoft Excel – a false friend for polynomial regressions	Budoï Gh., Berca M.	233-236
VG 06	Researches regarding harmful and useful fauna in cucumber crops	Călin Maria	237-240
VG 07	The study of the predatory species in cabbage culture	Călin Maria	241-244
VG 08	Variability of the main characters in green pea (varieties Afila sc and Gerola) during the process of conservative selection	Cenușă Maria, Scurtu I., Văleanu Mihaela, Miron V.	245-248
VG 09	Investigations concerning the use of some fertile-stimulating products at tomatoes cultivated in the field	Chilom Pelaghia, Lascu Nicolae	249-252
VG 10	The influence of improving of aubergine seedling physical characteristics of nutritive substrate used for transplant	Chivulete S., Drăghici Elena	253-256
VG 11	Researches regarding the influence of fertilization organic on greenhouse tomatoes	Crețu Teodora, Popescu V., Atanasiu N., Budoï Gh.	257-260

<b>VG 12</b>	The variability of nitrates content in some vegetables from some Bucharest Markets	Davidescu Velicica, Roxana Madjar, Neață Gabriela, Dima Ioana	261-264
<b>VG 13</b>	The influence of culture medium on in vitro clonal regeneration on witloof chicory ( <i>Cichorium intybus L.</i> )	Diaconescu Oana	265-268
<b>VG 14</b>	The beneficial associations of horticultural plants	Dobre Paul, Musat Nina, Ivascu Madalina	269-272
<b>VG 15</b>	The behaviour of new salad cultivars in associated tomato culture, in tunnels	Dobrin Elena, Atanasiu N., Bădulescu Liliana	273-275
<b>VG 16</b>	Researches regarding broccoli in different field crop systems	Dobrin Elena, Ciofu Ruxandra	276-279
<b>VG 17</b>	Comparison between some brussels sprouts cultivar	Dobrin Elena, Ciofu Ruxandra, Tudorean Liliana	280-283
<b>VG 18</b>	Studies regarding the container size influence to transplant quality, vegetative period and lettuce yield grown in high tunnel	Drăghici Elena	284-287
<b>VG 19</b>	Studies regarding uniformity of production for some new tomato hybrids grown in greenhouse	Draghici Elena, Gh. Budoii, Petra O., Brezeanu Creola	288-291
<b>VG 20</b>	Influence of thermophysical parameters on drying process of tomatoes	Epure D.G., Mitrui A., Muelbauer W., Udroiu Alina	292-295
<b>VG 21</b>	A new creation S.C. Unisem S.A. of eggplants - Niculina	Glăman Gh., Popa Niculina, Popa Gh.	296-302
<b>VG 22</b>	On the influence of some technological measures on economic profitability (economic results) in tomatoes grown in geo-thermal water heated glass-houses	Horgoș, A., Oglejan Doina, Becherescu Alexandra, Bulboacă T.	303-306

<b>VG 23</b>	Researches regarding the planting distance on witloof roots producing	Hoza Gheorghîța	307-309
<b>VG 24</b>	Management of integrated control of the weed with herbicides from CIG Câmpia Turzii in onion and tomatoes	Miron V., Iosif V., Savulescu I., Sturza F., Rusu Nicoleta	310-313
<b>VG 25</b>	Researches regarding the influence of tomato hybrid on production and accumulation of nutritive elements in fruits	Neață Gabriela, Drăghici Elena, Petra O.	314-317

#### VITICULTURE AND OENOLOGY

<b>Cod nou</b>	<b>Titlu</b>	<b>Autori</b>	<b>Nr. pag.</b>
<b>V&amp;O 01</b>	The influence of the rootstock on the anthocyan content of the grapes and wines obtained from pinot noir clones	Antoce Arina Oana, Stroe Marinela Vicuța, Nămoșanu Ioan, Heroiu Elena	318-321
<b>V&amp;O 02</b>	The influence of the rootstock on the colour parameters of the wines obtained from pinot noir clones cultivated in the Ștefănești region	Antoce Arina Oana, Stroe Marinela Vicuța, Nămoșanu Ioan, Heroiu Elena	322-325
<b>V&amp;O 03</b>	A survey of Romanian consumers of alcoholic drinks: some differences between genders	Antoce Oana Arina	326-331
<b>V&amp;O 04</b>	Personal preferences about wines as indicated by a survey of Romanian consumers	Antoce Oana Arina	330-333
<b>V&amp;O 05</b>	The age of the consumers and its influence on the consumption of beverages in Romania	Antoce Oana Arina	334-337
<b>V&amp;O 06</b>	Research concerning content variation in leaves' pigments at different types of pruning and bud loads with grapevine	Belea Mihaela, Dejeu L., Bădulescu Liliana, Burzo I.	338-342
<b>V&amp;O 07</b>	The glycerol forming and its influence upon the wines	Beleniuc Georgeta, Marin Gh.	343-346
<b>V&amp;O 08</b>	Some aspects of knowledge regarding the vine's energetic productivity in Bihor viticultural area	Cheregi V.	347-350

<b>V&amp;O 09</b>	Some aspects of integrated control of pests and diseases at vine	Cheregi V.	351-354
<b>V&amp;O 10</b>	The prognosis, warning and control of the main pests and diseases at vine in Diosig vineyard	Cheregi V., Burescu P.	355-358
<b>V&amp;O 11</b>	The cutting and guiding system at two varieties of vine cultivated in Saniob viticultural center	Cheregi V., Burescu P.	359-362
<b>V&amp;O 12</b>	The improvement of the antierosion methods of reclamation of the slopy lands for vine crop	Cheregi V., Burescu P.	363-366
<b>V&amp;O 13</b>	Performances of Fetească regală cultivar on five types of pruning	Dejeu L., Belea Mihaela Geanina, Mereanu Diana	367-371
<b>V&amp;O 14</b>	Grape vine' s growth-yield balance index and its influence on quality	Dejeu L., Belea Mihaela Geanina, Mereanu Diana	372-375
<b>V&amp;O 15</b>	The influence of temperature over fermentation activity of Saccharomyces ludwigii strain, isolated from wine	Dragomir Felicia	376-379
<b>V&amp;O 16</b>	Preliminary results concerning the effect of physics property's improvement of the nourishment's sortiment with poliacylamids on the quality of wine-grower's material	Dumitriu I.C., Chivulete S., Popescu M.I., Nastac-Curtescu Maria, Stancu R., Fleancu Monica, Costescu Adriana	380-384
<b>V&amp;O 17</b>	The study of callusogenesis on grapevine under gamma radiation using the correlation curves between callus mass and physical factors	Giosanu Daniela	385-388
<b>V&amp;O 18</b>	The establishment of the origin for some autochthonous vine varieties by multi-variable statistical methods	Indreăș Adriana, Stroe Marinela, Rotaru Liliana, Mărcuță Alina	389-393
<b>V&amp;O 19</b>	Characteristics of physico-chemical composition for several wine products obtained from Bianca variety	Ion M., Kontek A., Preda Daniela	394-397

<b>V&amp;O 20</b>	The characterization of the ecoclimatic resources of “Dealurile Craiovei” (Craiova Hills) vineyard by using the multicriterial method and by establishing its vocation for superior wine making	Olteanu I., Giugea N., Cichi Daniela, Costea D.C., Mărăcineanu C.L	397-401
<b>V&amp;O 21</b>	In vitro embryo rescue of abortive ovules in breeding table grapes	Popescu Carmen Florentina, Buciumeanu Elena	402-405
<b>V&amp;O 22</b>	Behaviour of the resistant variety „Bianca”, Under the specific conditions of Valea Calugareasca vinegrowing centre	Preda Daniela, Ion M., Kontek A.	406-409
<b>V&amp;O 23</b>	The behavior of some wines grapes varieties recommended for Murfatlar vineyard in 2003 year conditions	Ranca Aurora, Bian Cornelia, Brăduceanu Diana, Itu Violeta, Guluță Florica	410-413
<b>V&amp;O 24</b>	The multicriterial climatic classification concerning the Moldavian hills region and the Wallachian and Oltenian hills region	Savu Georgeta Mihaela, Nămoșanu I.	414-417
<b>V&amp;O 25</b>	The estimation of the ecoclimaterical conditions in the viticultural region of the Transilvanian plateau, using the synthetic indicators	Savu Georgeta Mihaela, Nămoșanu I.	418-421
<b>V&amp;O 26</b>	Implication of European organic viticulture in Romanian viticulture	Stănescu Doina, Teodorescu R.	422-425
<b>V&amp;O 27</b>	The study about distribution of terpenes compound in a different constituents parts at grape	Stoica Felicia, Heroiu Elena	426-429
<b>V&amp;O 28</b>	The comparative research of some pinot noir clones in the conditions of the Ștefănești-Argeș vineyard during 2002-2003	Stroe Marinela, Nămoșanu I., Antoce Arina Oana, Popa C.	430-433
<b>V&amp;O 29</b>	Studies regarding the ability for returning to multiplication potential after in vitro conservation to low temperature on grapevine	Vișoiu Emilia, Buciumeanu Elena, Popescu Carmen Florentina	434-437
	INDEX		438-445
