

# TABLE OF CONTENTS

## VEGETABLE GROWING

| Code  | Title  | Authors   | Page number |
|-------|--|---|-------------|
| VG 01 | The variability analyses of characters at carrot variety Ceahlău   | Silvica Ambăruș,<br>Creola Brezeanu   | 15-18       |
| VG 02 | Researches regarding the influence of protection complexes used to control Downy Mildew <i>Peronospora destructor</i> (Berk.) Casp., on Onion Bulbs, Onion Neck Rot - <i>Botrytis allii</i> Munn. and Onion Maggot - <i>Delia antiqua</i> Meig. affecting mean weight of onion bulbs | Alexandra Becherescu  | 19-22       |
| VG 03 | The influence of the variety and moment of consumption on the quality of tomatoes resulting from crops grown in unheated green houses  | Daniela Birca,<br>Gh. Câmpeanu,<br>Gabriela Neață,<br>N. Atanasiu,<br>Cristina Spiridon | 23-26       |
| VG 04 | Researches regarding the influence of varieties and plants density, relates with the number of fruit per plant, on eggplant seeds production   | Elena Broșteanu   | 27-32       |
| VG 05 | Researches regarding chemical and biochemical components existed in different tomato hybrids   | Gh. Câmpeanu,<br>N. Atanasiu,<br>G. Neață,<br>Gh. Hohan                                 | 33-36       |
| VG 06 | Researches regarding the quality and quantity of some tomato hybrids used in our country in solarium culture   | Gh. Câmpeanu,<br>G. Neață,<br>N. Atanasiu,<br>Gh. Hohan                                 | 37-40       |
| VG 07 | Epidemiology and control of the pathogen <i>Fusarium oxysporum</i> Schl. f. sp. <i>radicis lycopersici</i> (Jarvis and Shoemaker) on tomatoes  | M. Costache,<br>V. Lăcătuș,<br>C. Costache,<br>Gabriela Șovărel,<br>Cecilia Roibu       | 41-45       |
| VG 08 | Reaction of <i>Vicia Faba</i> plants to soil and foliar N application and K nutrition  | Răzvan Cotianu,<br>Nicole Atudosiei,<br>Mihaela Pârvulescu                              | 46-49       |
| VG 09 | Cytogenetic effects induced by „ <i>in vitro</i> ” cultivation of shoot tips at <i>Capsicum Anuum</i> L.   | T.O. Cristea,<br>S. Ambăruș   | 50-55       |
| VG 10 | Irrigation influence on water use efficiency in autumn Cabbage crop from Crișurilor Plain and irrigation scheduling by PAN evaporation method  | C. Domuța,<br>V. Șcheau,<br>Maria Șandor,<br>Ioana Borza,<br>Alina Samuel,<br>M. Gîtea  | 56-62       |
| VG 11 | Irrigation influence on water use efficiency in potato crop from Crișurilor Plain  | C. Domuța   | 63-67       |
| VG 12 | The relation between the pot size and some quality index at lettuce nurseling  | Elena Maria Drăghici  | 68-71       |
| VG 13 | Global Certificate - A guarantee for food safety in primary production for horticulture  | Iuliana Grigoriu,<br>Roxana Ciceoi  | 72-78       |

|              |  |   |         |
|--------------|--|---|---------|
| <b>VG 14</b> | The study of „ <i>re-incubation</i> ”, operation specific for modern technologies regarding cultivation of mushrooms <i>Pleurotus ostreatus</i> , on expression of yield potential of HK-35, P – 80 and K-12 hybrids | A. Horgoș,<br>Alexandra Becherescu,<br>Mirela Moțiu,<br>C. Don                        | 79-84   |
| <b>VG 15</b> | Researches regarding the influence of the „ <i>fazial</i> ” fertilization on the growth and fructification of tomatoes   | Gheorghiuța Hoza,<br>E. Pădurariu,<br>Elena Drăghici,<br>M. Velea,<br>Daniela Ciolacu | 85-88   |
| <b>VG 16</b> | Researches regarding the influence of some ecological fertilizers on the growth and fruit forming of tomatoes  | Gheorghiuța Hoza,<br>Elena Drăghici,<br>Daniela Ciolacu                               | 89-94   |
| <b>VG 17</b> | Effect of the irrigation with saline water on the behaviour of 2 soil enzymes urease and saccharase, soil respiration and soil humidity  | Antoun Maacaroun  | 95-98   |
| <b>VG 18</b> | Researches concerning the influence of some Romanian photoselective films on the productivity and quality of lettuce and tomato  | Mihaela Roșu  | 99-106  |
| <b>VG 19</b> | Behaviour of some green pepper lines ( <i>Capsicum annum</i> l. Var. <i>Grossum</i> Sendt) tested in the comparative plots for evaluation  | Gicuta Sbirciog   | 107-110 |
| <b>VG 20</b> | The influence of nitrogen and sulphur complex on the spreading of <i>Ceutorhynchus assimilis</i> (paykull) in canola crops   | Al.D. Scăunașu,<br>Gh. Câmpeanu,<br>N. Atanasiu                                       | 111-117 |
| <b>VG 21</b> | Larval development and vegetal biomass consumption of <i>Trichoplusia ni</i> (Hübner) under temperature influence  | Al.D. Scăunașu,<br>Gh. Câmpeanu,<br>N. Atanasiu                                       | 118-124 |
| <b>VG 22</b> | The influence of fertilization with green manure and husks of grapes compost in organic garden bean crop   | Rodica Soare,<br>Adriana Duță,<br>Ovidiu Paniță                                       | 125-130 |
| <b>VG 23</b> | The monitoring of the nitrates content for an organic and non-organic vegetables assortment cultivated in the S-W of Romania   | Rodica Soare,<br>Adriana Duță,<br>Marin Soare   | 131-136 |
| <b>VG 24</b> | Researches concerning the particularities to seed plants of the <i>Chive Onion</i> (Kind) variety Liliana  | Elena Ștefănescu,<br>Elena Liliana Milovici,<br>Minerva Heitz                         | 137-142 |
| <b>VG 25</b> | The Study of technological elements in the process of red orache ( <i>Atriplex hortensis f. rubra</i> ) seed production  | Elena Ștefănescu<br>Elena Liliana Milovici  | 143-149 |
| <b>VG 26</b> | Study concerning the properties of some diazotrophic rizobacteria stains for their utility in sustainable agriculture technologies   | Renata Șumălan  | 150-153 |
| <b>VG 27</b> | Yielding capacity of some <i>Pleurotus ostreatus</i> mycelia originating from spores   | A. V. Zăgrean,<br>N. Atanasiu,<br>Gh. Câmpeanu,<br>Petruța Călina Cornea              | 154-157 |
| <b>VG 28</b> | Researches on the use of the spore cultures for obtaining <i>Pleurotus ostreatus</i> commercial spawn  | A. V. Zăgrean,<br>Gh. Câmpeanu,<br>Petruța Călina Cornea,<br>N. Atanasiu              | 158-163 |
| <b>VG 29</b> | Studies about the influence of the hybrid and the density in the fall crop of broccoli   | Roxana Zăvoianu,<br>V. Popescu  | 164-172 |

## ORNAMENTAL PLANT & LANDSCAPE ARCHITECTURE

| Code     | Title  | Authors  | Page number |
|----------|--|--|-------------|
| OP&LA 01 | Preliminary results concerning the micropropagation <i>in vitro</i> of <i>Jasminum tortuosum</i> Willd. and <i>Murraya exotica</i> L.                                    | C.A. Asănică,<br>E. Selaru,<br>M. Isac                 | 173-177     |
| OP&LA 02 | Research on the growing and the quality of <i>Euodia hupehensis</i> Dode ( <i>Rutaceae</i> ) seedlings   | Ș.G. Burda,<br>Ana-Felicia Iliescu                     | 178-183     |
| OP&LA 03 | Researches concerning the influence of organic and mineral fertilizations upon the growth and flowering of <i>Euphorbia pulcherrima</i> Willd. ex Klotzsch potted plants | Ileana Cantaragiu,<br>Fl. Toma                         | 184-189     |
| OP&LA 04 | Researches concerning the influence of the rooting media on the cuttings' rhizogenesis of <i>Euphorbia pulcherrima</i> Willd. ex Klotzsch                                | Ileana Cantaragiu,<br>Fl. Toma                         | 190-194     |
| OP&LA 05 | Studies for improve the vegetative propagation of <i>Pelargonium</i> spp.  | Maria Cantor,<br>Teodora Pușcaș,<br>Erzsebet Buta      | 195-199     |
| OP&LA 06 | The influence of BAP and TDZ upon multiplication rate in <i>Rosa</i> sp.   | Clapa Doina,<br>Al. Fira                               | 200-204     |
| OP&LA 07 | The role and the evolution of urban green structures and the possibility of developing an ecological Bucharest.  | M. Culescu,<br>A. Teodorescu,<br>I. Tudora             | 205-211     |
| OP&LA 08 | The Park of the Cantacuzino Palace – Study on the valuation of the historic landscaping monument   | E. Dobrescu  | 212-219     |
| OP&LA 09 | Rediscovering a Forgotten Garden - Research upon a monument garden, part of the historic assembly of the Ottetelișanu Mansion  | S.A. El Shamali,<br>Ș. Burda                           | 220-226     |
| OP&LA 10 | Composition structures in creating historic gardens. The Cișmigiu Garden   | S.A. El Shamali  | 227-230     |
| OP&LA 11 | Ten years of Landscape Architecture education at the Bucharest - Faculty of Horticulture   | A.F. Iliescu,<br>V. Răducan,<br>A. Stănescu            | 231-236     |
| OP&LA 12 | The Kiseleff road and garden as identity marks   | R. Ionescu,<br>A. F. Iliescu,<br>C. R. Manescu         | 237-242     |
| OP&LA 13 | Preliminary results regarding the fertilization field culture of <i>Gladiolus gandavensis</i>  | Dorița Miroiu,<br>Velicica Davidescu,<br>Roxana Madjar | 243-248     |
| OP&LA 14 | New trends in Public Urban Parks – The Public Hanging Park   | I.M. Panțu   | 249-253     |
| OP&LA 15 | Behaviour in the multiplication process a some ornamental species/varieties coniferous with high ornamental value  | A.E. Posedaru,<br>Magdalena Duță                       | 254-257     |
| OP&LA 16 | Research on behaviour of <i>Magnolia soulangiana</i> in the multiplication stage of <i>in vitro</i> culture  | A.M. Radomir,<br>C.M. Tudor Radu                       | 258-261     |
| OP&LA 17 | The optimization of the quality of the public green space system in District IV- Bucharest   | Anca Stănescu  | 262-267     |
| OP&LA 18 | Research as regard to the biologically and ornamentally valuation of a fifteen <i>Gladioli</i> cultivars assortment  | M. Toporaș   | 268-272     |

## FRUIT GROWING&TECHNOLOGY

| Code    | Title  | Authors   | Page number |
|---------|--|---|-------------|
| FG&T 01 | Beginnings of alcohol distillation at world level and in the Romanian Principalities   | D. Beceanu  | 273-278     |
| FG&T 02 | Research to improve blueberry multiplication technology by hardwood cuttings   | C. Bădescu,<br>Cristina Bădescu,<br>E. Delian,<br>A. Bădescu                        | 279-282     |
| FG&T 03 | Evaluation of disease susceptibility of some native sour cherry genotypes, <i>ex situ</i> collected into Romanian National Germplasm | S. Budan,<br>M. Butac,<br>L. Petre,<br>G. Corneanu,<br>G. Grădinariu                | 283-286     |
| FG&T 04 | A study of qualitative properties of certain cherry cultivars  | Il. Burdujan  | 287-292     |
| FG&T 05 | The structure and the biotechnological value of the compact columnar apple tree  | N. Cepoiu,<br>D. Apostol,<br>C. Păun,<br>A. Asanică,<br>I. Stanciu,<br>C. Manolache | 293-296     |
| FG&T 06 | Ecologically Products Consumer – Demand analysis and stores potential  | L. Chira,<br>E. Delian,<br>A. Chira,<br>E. Săvulescu                                | 297-300     |
| FG&T 07 | Monitoring of some pathogen attack specifics to stone fruit trees species cultivated in Bucharest area                               | Stelica Cristea,<br>B. Mara,<br>M.C. Cristea,<br>E. Georgescu                       | 301-303     |
| FG&T 08 | Nowadays research preoccupations as regard to <i>Venturia inaequalis</i> fungus apple interactions                                   | Elena Delian,<br>Lenuța Chira   | 304-309     |
| FG&T 09 | Studies concerning the quality of some walnut oils and grapeseed oils commercialized in Iasi   | P.A. Dorobanțu,<br>D. Beceanu   | 310-314     |
| FG&T 10 | Precocity and production potentialities of some apple varieties, grafted on M9, in a large density plantation                        | V.V. Duca,<br>C. Manolache,<br>C.V.Oltenacu   | 315-318     |
| FG&T 11 | The behaviour of some raspberry varieties cultivated in the Banat Area ( <i>Rubus idaeus</i> L.)                                     | M.M. Enachiuc,<br>E. Drăgănescu   | 319-322     |
| FG&T 12 | The quality of apple influenced by the area of culture   | D. Hoza   | 323-327     |
| FG&T 13 | “Florina” apple tree breed behaviour in different systems of crown pruning   | A. Ionescu,<br>N. Cepoiu  | 328-333     |
| FG&T 14 | The behavior of some nectarine varieties in conditions of Didactic Station Timisoara   | O.A. Iordănescu   | 334-338     |
| FG&T 15 | Research on <i>Ex Vitro</i> rooting of raspberry microcuttings obtained from in vitro micropropagation                               | V. Isac   | 339-343     |

|                    |  |   |         |
|--------------------|--|---|---------|
| <b>FG&amp;T 16</b> | Research concerning the establishment of the soil maintenance technology in apple orchards in the Voinești-Dambovită area  | M. R Paraschivescu  | 344-346 |
| <b>FG&amp;T 17</b> | Specific technological measures leading to the increase of the apples quantity and quality   | Gh. Petre,<br>Valeria Petre,<br>Asănică A.  | 347-351 |
| <b>FG&amp;T 18</b> | The creation of new apple tree and pear tree breeds, genetic resistant against diseases, with quality fruits, suitable for ecological cultivation                  | Gh. Petre,<br>Valeria Petre,<br>N. Andreieș,<br>Gabriela Uncheașu,<br>Branște N.,<br>Mădălina Militaru  | 352-361 |
| <b>FG&amp;T 19</b> | Mycoplasma (Phytoplasma) detection in pear with pear decline, test plants and Psyllids in Romania using dot blot immunoassay method                                | P.G. Ploaie,<br>Constantina Chireceanu,<br>Marica Tatu,<br>V. Fătu  | 362-367 |
| <b>FG&amp;T 20</b> | The behaviour of some plum cultivars and hybrids at Plum Pox Virus (PPV) in the South Romania conditions   | S.A. Preda,<br>A.O. Giorgota,<br>A. Asănică   | 368-373 |
| <b>FG&amp;T 21</b> | The valuation of some technological features of fruits at two new sweet cherry cultivars   | Sorina Sîrbu,<br>D. Beceanu,<br>R.M. Anghel,<br>C.V. Zănoagă  | 374-377 |
| <b>FG&amp;T 22</b> | Perspective almond elites for fruit growing area of Oradea   | V. Șcheau,<br>C. Domuța,<br>M. Gîtea,<br>Ioana Borza,<br>Silvia Murg,<br>Renate Ivănescu,<br>F. Buie  | 378-382 |
| <b>FG&amp;T 23</b> | Persimmon - a New specie for the Southern Romanian area  | Iuliana Stanciu,<br>N. Cepoiu,<br>C. Manolache,<br>C. Păun,<br>A.C. Asănică,<br>S.G. Burda  | 383-387 |
| <b>FG&amp;T 24</b> | Behaviour of some new resistant Romanian apple cultivars under different planting systems  | Fl. Stanică   | 388-392 |
| <b>FG&amp;T 25</b> | Preliminary results concerning the evolution of main biochemical components of some excessively perishable fruits (berries) during the modified atmosphere storage | Georgeta Temocico,<br>V. Ion,<br>Eugenia Alecu,<br>Valentina Tudor,<br>Cristina Asănică,<br>I.I. Alecu,<br>F.A. Niculescu,<br>A. Niculescu,<br>Paulina Mladin | 393-396 |

|                    |   |  |         |
|--------------------|---|--|---------|
| <b>FG&amp;T 26</b> | The methodology for analyzing the choice of various market channels by the Romanian fresh fruits and vegetables producers | Georgeta Temocico,<br>V. Ion,<br>Valentina Tudor,<br>Cristina Asănică,<br>Eugenia Alecu,<br>I.I. Alecu,<br>F.A. Niculescu,<br>A. Niculescu | 397-400 |
| <b>FG&amp;T 27</b> | The behaviour of some pear trees, grafted on Quince trees in the conditions from the N-V part of the country              | Aurora Venig   | 401-403 |
| <b>FG&amp;T 28</b> | Economical efficiency concerning dwarf and semidwarf on own roots   | Aurora Venig   | 404-406 |
| <b>FG&amp;T 29</b> | Behaviour of new apricot hybrids in the processing industry   | A. Voicu,<br>Gh. Câmpeanu,<br>M. Bibicu,<br>A. Mohora  | 407-411 |
| <b>FG&amp;T 30</b> | Stability of protection to Sharka of C5 transgenic plums inoculated with <i>Plum Pox</i> Virus and heterologous viruses   | I. Zagrai,<br>L. Zagrai,<br>M. Ravelonandro,<br>R. Scorza  | 412-422 |

## VITICULTURE&OENOLOGY

| <b>Code</b>       | <b>Title</b>   | <b>Authors</b>   | <b>Page number</b> |
|-------------------|--|--|--------------------|
| <b>V&amp;O 01</b> | Grape sensory parameters to be monitored in order to obtain typical Merlot wines – assessment of grape maturation in 2007  | Arina Oana Antocea,<br>I. Nămoleşanu,<br>Peltea Emanuela                                 | 423-429            |
| <b>V&amp;O 02</b> | Particularities of the maturation of Pinot noir grapes in 2007 determined by sensory analysis  | Arina Oana Antocea,<br>I. Nămoleşanu,<br>Peltea Emanuela                                 | 430-436            |
| <b>V&amp;O 03</b> | Researches concerning the influence of weed control measures on grape yields from vine plantation of Timisoara Didactic Station  | D.N. Băluţă,<br>G. Cârciu,<br>Viorica Țăru,<br>R.C. Băluţă                               | 437-440            |

| <b>V&amp;O 09</b> | Exploitation of ecological resources by managing the processes which influence the quantity and quality of grape production  | Elena Dumitru,<br>Maria Ivașcu,<br>Monica Cristina Grigore                 | 470-476 |
| <b>V&amp;O 10</b> | The influence of the winemaking technology on the aging capacity of the Grasă variety wines from the Dealu Mare Vineyard – Pietroasa Wine  | L.G. Grigorică,<br>I. Nămoloșanu   | 477-481 |
| <b>V&amp;O 11</b> | The effect of electric field on <i>in vitro</i> regenerative processes and grapevine virus elimination   | I.C. Guța.,<br>E.C. Buciumeanu,<br>E.Vișoiu,<br>Al. Teodorescu,<br>I. Lița | 482-486 |
| <b>V&amp;O 12</b> | Agro-biological and phenolic potential for area extension of Romanian grapevine varieties for high-quality red wines   | A. Indreas,<br>F. Radoi-Matei,<br>E. Heroiu                                | 487-491 |
| <b>V&amp;O 13</b> | Procedure of reverse osmosis used in conditioning and stabilization of wines – it's effect on preservation wines quality   | G. Marin,<br>N. Menabit,<br>V. Artem,<br>A. Galip                          | 492-498 |
| <b>V&amp;O 14</b> | Soil water reserve dynamics in grapevine plantations and its influence on the production of grapes under the environmental conditions characteristic for the year 2007 in the Vineyard of Odobesti | Gh. Mihiu,<br>Marioara Bosoi,<br>Ionică Bosoi                              | 499-505 |
| <b>V&amp;O 15</b> | Results regarding Feteasca Alba wines analysis using an „electronic nose” instrument   | E.F. Peltea,<br>Arina Oana Antocea,<br>Ioan Nămoloșanu,<br>Constanța Mihai | 506-510 |
| <b>V&amp;O 16</b> | The behaviour of the Gros Sauvignon variety in the ecological culture system in the Vineyard of Cotesti  | Aurelia Podosu,<br>Ghica Mihiu,<br>Lăcrămioara Miron                       | 511-516 |
| <b>V&amp;O 17</b> | Wine-growing habitats from Oltenia-Romania, with vocation for obtaining red quality wines, with controlled origin denomination (C.O.D.)  | A. Popa,<br>A. Dunoiu,<br>J. Onescu  | 517-523 |
| <b>V&amp;O 18</b> | Comparative study regarding the degree of adaptability of two german varieties – Regent and Dornfelder on the experimental field of USAMV Bucharest  | Marinela Vicuța Stroe  | 524-527 |
| <b>V&amp;O 19</b> | Some aspects regarding the chemical behaviour of some nutritive substrates used for grapevine growing in a closed system   | L. Tataru,<br>B. Oprescu,<br>D. Giosanu                                    | 528-533 |
| <b>V&amp;O 20</b> | Researches Concerning fertility and productivity of grape varieties cultivated in Teremia Viticulture Centre   | Viorica Țăru,<br>Octavian Țăru,<br>D.N. Băluță                             | 534-540 |

## BOTANY & PHYSIOLOGY

| Code   | Title  | Authors   | Page number |
|--------|--|---|-------------|
| B&P 01 | Obtaining and characterizing flavonoids and polyphenolic acids from <i>Cynara scolymus</i> L. (Artichoke) leaves and <i>Arctium lappa</i> L. (Burdock) roots   | Ani Alupului,<br>V. Lavric  | 541-544     |
| B&P 02 | Research regarding the composition of <i>Agastache</i> Genus ( <i>Lamiaceae</i> ) cultivated in Romania  | I. Burzo,<br>D. Mihăiescu,<br>L. Bădulescu,<br>M. Fălticeanu,<br>A. Dobrescu,<br>E. Delian,<br>S. Ambăruș               | 545-550     |
| B&P 03 | Physiological responses of Banat's common bean landraces ( <i>Phaseolus vulgaris</i> L.) seedlings to osmotic stress   | Carmen Dobrei,<br>R. Sumalan,<br>D. Camen,<br>Giancarla Velicevici,<br>Renata Sumalan,<br>Mariana Babau,<br>G. Mosoarca | 551-554     |
| B&P 04 | Preliminary study regarding the qualitative characteristics of a genotype from <i>Pyrethrum Cinerariifolium</i> (trevir.) specie, as a premise in the control of pests, through the specific methods of ecologic agriculture | Marcela Fălticeanu,<br>L. Stoian,<br>Tina Oana Cristea,<br>I. Burzo,<br>L.A.Bădulescu                                   | 555-561     |
| B&P 05 | The geotropically modifications of mustard plantlets due to the phytochrom reversibility   | Monica Fleancu,<br>Daniela Giosanu,<br>Lavinia Tataru   | 562-565     |
| B&P 06 | Contributions to the knowledge of the physiology and biochemistry from <i>Tilia platyphillos</i>   | Alina Gegiu   | 566-569     |
| B&P 07 | Contributions to the knowledge of the composition of essential oils from <i>Tilia tomentosa</i> , <i>Tilia americana</i> and <i>Tilia platyphillos</i>   | Alina Gegiu   | 570-572     |
| B&P 08 | Structural peculiarities of <i>Polygonatum verticillatum</i> 's (L.) All. and <i>Streptopus amplexifolius</i> 's (L.)DC. aerial vegetative organs  | M.I. Georgescu,<br>V. Palanciuc,<br>E. Săvulescu  | 573-578     |
| B&P 09 | contributions for knowledge of the content in mineral elements from the leaves of three species of Thuja   | H.M. Baath  | 579-582     |
| B&P 10 | variance of the mineral content from different organs of two Virginia Tobacco Cultivars  | A.D. Ionescu,<br>I. Burzo,<br>O.S. Ionescu  | 583-585     |
| B&P 11 | Contributions to the knowledge of physiological and biochemical processes of the “mangetout” Pea Cultivar Sugar Snap   | S.O. Ionescu,<br>I. Burzo,<br>A.D. Ionescu,<br>N. Atanasiu  | 586-590     |
| B&P 12 | The influence of Isoproturon on the dynamic of the population density and the assimilatory pigments content in <i>Chlorella vulgaris</i> and <i>Botryococcus braunii</i>   | D.A. Lazăr  | 591-596     |
| B&P 13 | The balance of mobile phosphorous in some substrates   | R. Madjar,<br>C. Mănescu,<br>V. Davidescu,<br>G. Neață  | 597-600     |

|                   |   |  |         |
|-------------------|---|--|---------|
| <b>B&amp;P 14</b> | Preliminary results regarding the influence of Cytokinin on micropropagation of <i>Magnolia soulangiana</i> Soul. Bot                           | Luminița Marinescu,<br>A.M. Radomir,<br>Tudor Radu,<br>C.A. Teodorescu,<br>Monica Fleancu,<br>C. Popescu | 601-607 |
| <b>B&amp;P 15</b> | The influence of photoperiod on <i>in vitro</i> culture in the multiplication phase at <i>Eustoma grandiflorum</i>                              | C. Popescu,<br>A. Teodorescu,<br>Monica Fleancu,<br>Luminița Marinescu                                   | 608-612 |
| <b>B&amp;P 16</b> | Physiological behaviour of strawberry <i>in vitro</i> culture in the multiplication phase   | C. Popescu   | 613-618 |
| <b>B&amp;P 17</b> | Variability of the main anatomical characteristics for leaves and fruits of some apple trees varieties and hybrids ( <i>Malus domestica</i> L.) | E. Săvulescu,<br>M.I. Georgescu,<br>D. Hoza,<br>G. Petre,<br>V. Petre                                    | 619-622 |

### OTHER FIELDS

| Code         | Title  | Authors  | Page number |
|--------------|--|--|-------------|
| <b>OF 01</b> | Characterization of the molasses based culture media to obtain single cell protein, in order to optimize the medium composition          | M. Begea,<br>C. Stoicescu,<br>G. Bâldea,<br>M. Vlădescu,<br>S. Mușu,<br>E. Baron,<br>Ș. Berilă,<br>P. Begea            | 623-626     |
| <b>OF 02</b> | AFLP markers as a powerful tool for fingerprinting and breeding <i>Tulipa</i> Genus  | Ioana Olivia Bondrea,<br>D. Pamfil,<br>A.W. van Heusden,<br>J. van Tuyl,<br>M. Bondrea,<br>Lucaci Meda,<br>A. Taoutaou | 627-629     |
| <b>OF 03</b> | Quality assurance in education   | Lance Butters  | 630-634     |
| <b>OF 04</b> | Performing method for Patulin detection in apple juice, in order to food safety assuring   | M. Catană,<br>L. Catană,<br>E. Iorga,<br>M. Negoită,<br>V. Ionescu   | 635-639     |
| <b>OF 05</b> | The effects of system management on soil carbon dynamics   | A. Di Tizio,<br>A. Lagomarsino,<br>M.C. Moscatelli,<br>S. Marinari,<br>S. Grego,<br>R. Mancinelli                      | 640-644     |
| <b>OF 06</b> | Phenological aspects of natural populations of <i>Helix pomatia</i> and <i>Helix lucorum</i> (Gastropoda-Pulmonata-Helicidae) in Romania | M. Falca,<br>G. Brinzea  | 645-650     |

|                                 |  |  |         |
|---------------------------------|--|--|---------|
| <b>OF 07</b>                    | Tagging aphids with fluorescent dyes as a tool for epidemiological studies   | S. Marco   | 651-652 |
| <b>OF 08</b>                    | Research on isolation, characterization and testing the interaction between <i>Trichoderma harzianum</i> and <i>Botrytis cinerea</i> for biological control of gray mold in strawberry | G.M. Matei,<br>S. Matei  | 653-657 |
| <b>OF 09</b>                    | The study of the viticultural ecosystem biodiversity S.D. Banu Maracine - Craiova  | I. Mitrea,<br>Rodi Mitrea,<br>C. Stan,<br>O. Tuca,<br>Daniela Ciupeanu   | 658-665 |
| <b>OF 10</b>                    | Histologic modification induced by the action of the insecticide Samurai on the skin and liver of <i>Rana Ridibunda</i>  | A. Păunescu,<br>C.M. Ponopal,<br>O. Drăghici,<br>Al.G. Marinescu   | 666-670 |
| <b>OF 11</b>                    | Biotechnology for conversion of winery and vine waste into mushroom products   | M. Petre,<br>Al. Teodorescu  | 671-676 |
| <b>OF 12</b>                    | Identification of <i>Plum Pox Virus</i> isolates from Transylvania Region, using RFLP method   | Ioana Virginia Petricele,<br>D. Pamfil,<br>A.C. Briciu,<br>Iulia Francesca Pop,<br>Luminita Zagrai,<br>I. Zagrai | 677-682 |
| <b>OF 13</b>                    | Genetic similarity assessment and molecular characterization of some <i>Castanea</i> genus genotypes using RAPD markers  | Iulia Francesca Pop,<br>D. Pamfil,<br>Monica Bodea,<br>M. Botu,<br>Ioana Virginia Petricele                      | 683-689 |
| <b>OF 14</b>                    | Analysis regarding the influence of non-conventional technologies on soil physical properties and corn yields  | D. Popa  | 690-693 |
| <b>OF 15</b>                    | An ash dump's revegetation strategy, based on the management of <i>Rhizobium</i> and Arbuscular Mycorrhizae  | Daniela Popa,<br>V. Hănescu  | 694-699 |
| <b>OF 16</b>                    | Microbial community structure and enzyme activities in fly ash cultivated with <i>Lolium perenne</i> in associations with <i>Glomus intraradices</i>                                   | Daniela Popa,<br>V. Hănescu  | 700-704 |
| <b>OF 17</b>                    | The promotion and building of associative farms in horticultural field, in Teleorman District  | C.O. Simion,<br>M. Simion,<br>N. Farcaș  | 705-708 |
| <b>OF 18</b>                    | The modernization of agricultural exploitations in the Teleorman District  | C.O. Simion,<br>M. Simion,<br>N. Farcaș  | 709-713 |
| <b>OF 19</b>                    | Preparation of DNA samples for GMO analysis of soybean-derived foodstuffs  | C.R. Sisea,<br>D. Pamfil   | 714-720 |
| <b>OF 20</b>                    | <i>Phytophthora infestans</i> the agent of late blight of potato and tomato: mechanisms of pathogenity   | A. Taoutaou,<br>Carmen Socaciu,<br>D. Pamfil,<br>Ioana Olivia Bondrea,<br>Meda Lucaci,<br>Erika Balazs           | 721-726 |
